FIRST YEAR.

MAYSVILLE, KY., SATURDAY, APRIL 23, 1892.

ONE CENT.

## OUR TRAMP ABOUT THE CITY.

Mrs. Rose of Bath county fell in the fire during a spasm and burned both eyes out.

The Knights of Pythias are having a home in Owingsville.

ROBERT E. BUCKLER has been appointed Attorney for the town at Mt. Olivet.

It is thought that a Lodge of Knights of Pythias will be established at Mt. Olivet in May.

The Chesapeake and Ohio Railroad pays about \$3,000 a month for cows killed on the track in Virginia alone.

WINCHESTER will soon have its butter and cheese factory completed. Its daily capacity will be 2,000 gallons of milk.

ALEX JOHNSON, colored, who was sent to the Penitentiary from Mason county for one year for shooting his wife, has been released.

JAMES R. JONES dropped dead in Louisville. He was about 34 years old, and was manager of the Park City Flour Mills, Bowling Green.

MRS. NANNIE GOODPASTER, formerly of Owingsville, but for the past few years residing at Lexington, will come back to her old home in Mason county the first of May.

JAMES H., son of Mrs. Mary F. Martin of Forest avenue, was recently chosen class orator at the Philadelphia College of Pharmacy out of a class of 260 students.

THE people of Millersburg have rented the old Kentucky Wesleyan College Building for an indefinite period and it will be used to conduct a training school for young men.

MARYSVILLE has a representative at the head of the Democratic state ticket of Indiana. Hon. Claude Mathews, who is the candidate for Governor. He is the present Secretary of State.

At Lexington Woodson Dudley was fished out of the raging torrent of the town branch a few days ago. This was the third time, and it is thought that he was not born to die.

LEWIS TURNER, of the Mt. Gilead neighborhood, who was admitted to the Ohio State Asylum, April 14th, 1884, died there April 15th, 1892, having been there for twenty-eight years.

WILLIAM H. BARNETT died at Richmond, aged 70. He was never married, but leaves many relatives in Kentucky and the West, among whom a fortune of \$100,000 will be distributed.

The County Clerk of Bath has provided a record in which is entered all marriage certificates given by Square Beasley to clerks from that county. Clerks of other counties should follow this good example.

The failure of the "Little Tycoon" to appear here at the cause of his disappointment to the enterprising young people of Mayfield, as well as to the Opera house managers, was the last straw that caused the County Clerk of Bath to have been present.

Mrs. O. C. Franklin, widow of the late Henry B. Franklin, died suddenly at the home of her daughter, Mrs. Turner, in Richmond, Ky., aged 77 years. The remains were interred at Flemingsburg City next August to attend the Biennial Convocation of that order.

The Augusta Chronicle comments on this record of cards tendered by Mayfield Christian Endeavorers to the Augustans in this wise: "The people of Augusta are famed for their hospitality to all, but should he doubtfully hospitable to Mayfield, having had the same hospitality extended to our people that was extended to their delegates here. The people of Augusta know of Mayfield's manner of caring for her visitors, and only wish for the day to come soon when the same cordial and friendly relations now existing may be made stronger by friendly and Christian intercourse."

SIMON NELSON has returned from Cincinnati, where he was called by reason of an accident to his father. The telegram announced that Mr. Nelson had fallen and dislocated his hip. It turns out that as he was stepping into his doorway he slipped in some way and his body being twisted around he received a heavy fall and shattered the hip-bone near the socket. The injured man is under the care of Dr. C. A. Clegg, skillful surgeon, but it is yet unable to say what may be the outcome of the injury. When Mr. Nelson left Cincinnati his father was suffering intense pain.

TAYLOR PROKEMER went about ten years ago from Caldwell county to Texas and married there. For three years all went well, when frequent quarrels arose. The last of these ended a few days ago with Mrs. Plcker killing her husband with a poker.

In Louisville Judge Barr has refused a new trial in the case against Hugh Mulholland, the late state legislator, whose attorney applied immediately for a writ of error, and the case was transferred to Louisville, to be heard in about three weeks.

THESE are sensational developments in the Masonic trials at Louisville. The Germania Trust Company is the assignee of the Masonic Bank. Adolf Reutlinger, the President of the Trust Company, and Robert Reutlinger, the Secretary, resigned. This gives a new complexion to the trials which the deposition of the bank have been making. The trials of the defunct bank, are related by marriage. The depositions have all along objected to the assignee on the grounds that it was all a family affair, and that they had no chance to get their money. But the resignation of the two men is a great surprise. It is said that other sensational developments will follow.

## HE HAD TOO MUCH OF A JAG.

A Montgomery County Widower Rejected by a Sensible Young Woman.

A special from Mt. Sterling says V. C. Hainline, a well-to-do widower of Love, evidently realizes at this time that the way of the transgressor is hard.

Some months ago Mr. Hainline entered into a correspondence with Miss Elizabeth Brown, a handsome young lady of Mayfield, and in the course of events proposed marriage.

Miss Brown accepted. She was to go to Mt. Sterling, where Mr. Hainline would meet her and they would be married. Before the appointed time arrived, however, Mr. Hainline had it, is alleged, become very intoxicated. Hearing of this Miss Brown became very indignant and declared they should henceforth remain strangers.

Mr. Brown proposed. She said: "I will not marry any man who drinks, no matter how much money he may have. I was greatly disappointed in Mr. Hainline. He is not the kind of man I expected to meet."

A Mob of Desperados Attack a Conductor and Brakeman,

But the men, who were the worst of the lot, gave up the fight.

PARKERBURG, W. Va., April 23.—The up train on the New River, at 9 p.m., took on a crowd of toughs from the town of Mingo City. Capt. Ed. Smith, conductor, approached the leader for his fare, and was met by a volley of oaths and a threat, that he would shoot him if he did not give up his fare. The conductor tried to quiet him, when the tough pulled out a bear bat, and smacked it at the conductor's head.

The conductor forced him to his seat and the station was reached the toughs got off. Conductor and brakeman were standing and the platform the train made an attack upon them. One of them aimed a blow at Beckwith that might have killed him, but only grazed his head. Smith jumped on to the conductor's seat and the toughs jumped on the train and signaled the engineer to go ahead. The train started, leaving the conductor and brakeman behind, when E. T. Caldwell, conductor, approached the station and stopped the train. The fireman jumped off the engine, and taking a pick handle, jumped into the toughs and mowed them down right and left. ## HIRE TO KILL.

Fifty Dollars a Head for Every Dead Rustler.

Sensational Stories Told by a Man Now in Jail.

Maj. Fenchet's Forces Still Hold Those Cannibals Prisoners—A Hotchpotch Gun on an Army Mule—It Commands the Respect of the Rebels.

CHEYENNE, Wyo., April 23.—A man named A. C. Dunning, hailing from Idaho, is now in jail at Buffalo. He was one of the party of regulators put in the prison there by the rebels, who concealed himself and escaped to Buffalo. He reached there Friday and was arrested on suspicion by the sheriff on Sunday after having been kicked and cuffed about the streets of Buffalo as one of the inmates of a prison.

He states that he was hired by the secretary of the state commission, and the plan proposed was simply blood-curdling in its atrocity. Dunning had a letter in his pocket directed to an Idaho friend, in which he gave away the whole secret. This letter is now in the possession of the sheriff among a lot of other evidence.

He says that Champion and Ray had been warned and would not have been killed if they had heeded the warning.

The hired men, he says, were to get \$50 a day and gun-squares for every man killed.

He says it cost over \$8,000 to get Champion and Ray.

Brown's SINKING, Wyo., via Courier to Douglass, April 22.—Covered with mud from head to foot, with horses completely played out, 200 cavalrymen, properly mounted, right gallantly, started in front of Michael Healy's saloon at Brown's Springs at 6 o'clock Thursday evening.

They left Fort McKinney at 10 o'clock Sunday morning and had been five days covering 150 miles.

Major Fenchet, who had his posse started at McKinney, Maj. Fenchet is in command of the expedition, his soldiers comprising companies C, E and II of the Sixth cavalry. The major, blunt and outspoken, has little sympathy for the prisoners, and has, on divers occasions, said:

"The soldiers are not in love with their trip. A very important feature of the expedition is a Hotchpotch gun carried by an army mule. It, more than any other thing, commanded the respect of the rustlers."

It is related on good authority that while the cattlemen were besieged at the "T. A." ranch, Bobby Ford, a wealthy merchant of Buffalo, offered the commanding officer at Ft. McKinney \$5,000 for a pardon.

Deeming, the Deacon.

MATTHEWS, April 23.—The trial of Frederick Bailey Deeming, for the murder of his wife, called in all the proceedings in Australia, Mrs. Williams, that being the name Deeming assumed here, opened Friday. The court room was crowded to its fullest capacity, as it was last week, when the application of the defense for an adjournment it was known would be made, in order to permit of witnesses being brought from England, was preferred; it would be denied, and the trial would at once be proceeded with.

The lawyers were doomed to disappointment for Mr. Lyle, counsel for the prisoner, at once asked for an adjournment until April 28 and the application was granted.

Deeming was at once taken back to the jail.

ROCKY MOUNTAIN NEWS, April 23.—The month of March the collection of St. Peter's pence for the vatican was notably increased, the amount having been upwards of \$80,000, while the average monthly collections of other parishes have not exceeded \$20,000.

Before the papal election, the vatican by the action of its policy favorable to the French republic, France usually headed the list in the amount collected, but since that time it has sunk to the eighth place, the United States standing second.

LAKE SUPERIOR TIMES, April 23.—Three flocks of geese were shot.

The day was very generally observed throughout the state.

It is expected that the *Tynedale* will sail on the 20th, with the Washington Red Cross relief ship.

SUNDAY STREET CARS A NECESSITY.

MINNEAPOLIS, Minn., April 23.—At Sioux City Judge Foley decided the test case involving the right of the Rapid Transit Co., to run street cars Sunday. The judge held that street cars are not a necessity within the meaning of the statute. The decision disposes of the one hundred arrests of the Rapid Transit employees last Sunday and will stop the crusade against the street cars.

## REIGN OF TERROR

Forced in London From Anarchy and London, April 23.—The excitement of the anarchists over the arrest of Mowbray and the seizure of their Commonweal, is shared by socialists and radicals, and several meetings have been called to protest against the action of the police. The Berlin Street Industrial Workers, a socialist organization with extreme tendencies, has held a meeting and passed resolutions denouncing the police and the home office and expressing sympathy with Mowbray for the brutal treatment he received.

Many anarchists were present from other organizations, and violent speeches were made against the police and against Mr. Matthews for countenancing the illegal interference with the rights of the press. Several speakers advised the men to turn to themselves, as their colleagues in Spain and France were doing and to frighten the government with dynamite, to gratify the anarchistic of London their rights.

A socialist club arranged to cooperate with other socialist and anarchist organizations in this city, to make a great demonstration at the funeral of Mrs. Mowbray, who died two hours before her husband's arrest. It is expected that about 8,000, and perhaps 10,000 persons will march with society banners and red flags and march behind the body to the grave.

Despite Mowbray's absence the Commonwealth will appear as usual to-day.

The tone of Friday's publication is extremely radical, though violent, and it is not unlikely that this will be well received by the police, although many persons are apprehensive that such action might inaugurate here a reign of terror such as prevails in Paris and Madrid.

Henry Deacon, writing to Mowbray in prison, promised him to see that his family lack nothing during his enforced absence. De Autonomie, the German Worker's Friend and Yiddish, anarchist newspaper, will publish details of all meetings, trials, etc., for Monday and other dates, with which to show their disapproval of "tyranny in a country supposed to be free," to take part in the procession.

OUT OF SIGHT FOR A SECOND,

But That Was Their Plan for This Third Day of the War.

NASHVILLE, Tenn., April 23.—At the union depot, F. J. Bissell, traveling salesman for the jewelry house of Bowman & Co., Nassau street New York, was robbed of a value containing diamonds, gold, and small valuable articles in his hands, as was his custom at all times. Its value making him suspicious of his grasp. At length the bagagemaster handed him a bunch of checks. He counted them over. One was missing, and, impatiently setting his valise, he started off in a neighboring track to turn to engage the attention of the bagagemaster. He drove his thoughts from the value but a moment, but in that brief space of time he lost \$2,000 or more of his jewelry. When he turned his valise he was gone. Detectives have been employed to find him.

STRIKE THREATENED AT CLEVELAND.

CLEVELAND, Ohio, April 23.—The ironworkers of this city are seriously agitating the question of a May day strike for higher wages, and, as the ironworkers at Toledo, Cincinnati, and several other towns, are uniting, the movement is spreading.

It is related on good authority that while the application of the defense for an adjournment which it was known would be made, in order to permit of witnesses being brought from England, was preferred; it would be denied, and the trial would at once be proceeded with.

THE IRON WORKERS.

NEW YORK, April 23.—The past week details have been received here of such instances of strikes as at Taliaferro, St. Louis, and several other towns. The predictions of a German scientist relative to these earthquakes are prominently noticed in the press. The predictions were nearly correct.
